## Be transformed in 6 months

Looking to be transformed in just 6 months? Join codelab educare and unlock your full potential! Learn cutting edge skills, gain practical experience and become a coding pro in no time.

Don't miss out on this incredible opportunity to level up your career.

### Mr Amos Olobo

Founder & CEO

At Osoft Integrated Resources, we now specialize in building automation processes for various State Government to aid Internally Generated Revenue with streams of Integration services across industry practitioners and strong partnerships with the likes of NIBSS, Interswitch, Remita, etc to expand payment services for Government Revenue Businesses.

Codelab was started to expand the experience and bring younger Nigerians into that space where they can become independent to build their career on our platform while becoming self-reliant in other spheres of their lives. For me, I will say Codelab is technology for self-reliance.

### Haruna Amos Olobo

CEO, Codelab Educare

## A word from The CEO

Software development has taken a dimension beyond what it used to be. I started as a windows developer using visual basic and building desktop applications for businesses and small networks before the emergence of dotnet and web applications. For me, it was a journey of great passion for computers and a profound skill of self-learning and development the moment I got access to the internet and some books from old libraries across different schools in those days. The needs grew and I ventured into training of other developers to expand scope when Osoft Integrated Resources Limited was started in December 2011.

## How it works

### Recruitment and selection

The process starts with an automated selection after filling our google docx on our website and attempting our aptitude and assessment tests.

### Training and Curriculum

The training is a 6 months cutting edge skilled assessment program accompanied with our seasoned mentorship system which launches your career as a software engineer. Our students are required to learn and become professional developers in all our full stack coding courses.

### Job Opportunities

After 3/4 months internship program our job placement team supports you and guides you to your dream path.

2	Ethical Hacking	N300, 000	12 Weeks

## PROJECT MANAGEMENT

S/N	COURSE	FEES	DURATION
1	Project Management	N350, 000	12 Weeks

## WHY codelab educare is the right choice for you?

Codelab educare is the perfect choice for anyone because it offers comprehensive and practical learning experiences, whether you are a beginner or practical professional, codelab educare provides top notch instructors, hands on project and real world applications . Plus our supportive community and career services to ensure you have all the resources you need to succeed. It's the ultimate learning environment

### Why apply for codelab educare?

Practical skills/hands on experience,

Job creation

Supportive community and engaging learning environment and guess what?? All can be achieved in our 6 months intensive course which combines a world class curriculum with real life projects to get you ready for your dream path.

### FAQs

#### Is the training remote or onsite?

The training is divided into two major sessions which are both remote and on site and these training sessions are decided by the mentors.

#### What are the payment options?

There are two major payment options;

- Self sponsorship
- Pay as you learn scholarship program  
scheme that gives our applicants access to loans to cover up to 100% of the training fees.

#### Where is Codelab Educare training centre?

Our Training center is located at Gwarinpa, Abuja

#### Is there Financial aid for the training?

Yes, There is a clause for students who cannot afford the full fees. Codelab has a pay as you learn scheme that gives our applicants access to loans to cover up to 100% of the training fees.

## Who can apply for our student loan?

- Must be a Nigerian with a national identity card and between the ages of 20 to 29.
- A mandatory requirement entails the inclusion of a guarantor, who must be either a public servant or an employee of a private enterprise, to endorse the loan application.
- In the event of a loan default, accountability will be enforced through the verification of your Bank Verification Number (BVN), ensuring the presence of a functional BVN.
- Upon the completion of training sessions, interns are engaged for employment with our organization to fulfill their loan obligations, particularly in instances where self-repayment is not achieved.
- We also facilitate the acceptance of installment payments.
